

FBBA and SchoolHouse Partners

This school year we have partnered with a locally owned and operated business called SchoolHouse Partners.

SchoolHouse Partners' mission is to connect people to qualified, pre-screened service providers and fund public and private schools at the same time. There is no fee to use this service - if you do choose to use the plumber, painter, foundation repair, etc. service, you get a discount PLUS, because of the founders' personal commitment to education, 20% of what SchoolHouse Partners earns from billed and collected invoices will be contributed to the school you designate on every transaction you have with these providers.

Partners Mike Heinzman and Carter Higley have both personally met with each home repair and maintenance service provider on their growing list of qualified companies. Just remember to mention FBBA when you call and our school will benefit!

In short, our school makes money while you save money. For more information visit <http://www.myschoolhousepartners.com/>.
